

# Digital investigation and IT devices

## IT DEVICES WITH WIDE UTILITY

CRU® WiebeTech® is best known for its digital forensics and investigation equipment, but much of its line is also popular with IT professionals. CRU's IT tools offer a reliable hardware solution to common problems like hard drive re-use or data management. With industry-leading data collection and erasure products, the WiebeTech line is relied on by government agencies, law enforcement, and enterprise throughout the world.

## WIEBETECH IS TRUSTED BY IT PROFESSIONALS IN MANY FIELDS

IT, e-discovery, and investigative tools for digital data capture, duplication, and IT tasks in the field, laboratory, and office.

**Applications:** e-discovery, corporate security, data acquisition, IT tasks, digital forensics

**Core markets:** corporate security, government, military, and IT professionals

Law Enforcement

Enterprise IT

Science & Medicine

# Powerful IT tools

WiebeTech devices are used by corporate security teams, IT investigators, and eDiscovery personnel, to preserve data to be used as evidence or to archive data.

Other WiebeTech products, such as the Drive eRazer Ultra and the Mouse Jiggler, provide useful solutions to common problems that IT managers encounter everyday.

WiebeTech tools, coupled with CRU's robust lines of storage devices, simplify our IT and enterprise customers' tasks by making them easier and more efficient.

# Unique devices for a multitude of tasks

## HOTPLUG™

A truly unique device, HotPlug transports a live computer without shutting it down. Developed for digital investigation, the device has been adopted in many IT markets.

## DRIVE ERAZER ULTRA

The Drive eRazer Ultra is a stand-alone, HIPAA-compliant hardware solution that completely, quickly, and easily erases all data from a hard drive. It can be configured to erase HPAs and DCOs.

## MOUSE JIGGLER™

Prevent a computer from going to sleep with Mouse Jiggler. Popular because of its simplicity, MJ is a very handy tool that should be in the pocket of every IT professional.
